Girmay Tadese

Develop, Design, and Test Software Applications.

👤 Profile

MERN Stack Developer and Cypress Tester.

- I am a professional MERN-stack developer having 3+ years of experience working on projects related to MongoDB, Express.JS, React Hooks, Node.JS, Material UI, Bootstrap, Styled Components, and Cypress as my test automation tool.
- I consider myself to be an innovative and hard-working individual who can achieve anything. I am always exploring new skills and ready for any challenge.

- Why me?

  - Participated in big projects and have a start-up mindset.
  - 3+ years of experience in web development using MERN.
  - Fast learner and adapt things fast.
  - Excellent communication with team members.
  - Understand requirements fast and work based on the requirements.
  - Meet expectations and deadlines.
  - Deep understanding of the front-end and back-end frameworks.
  - Designed layouts for different clients based on their requirements.
  - Eager to learn.
  - In my setup, I pay attention to details very well.

💼 Employment History

Ethiopia Electric Utility Company (EEU).

Jan, 2019 - Feb, 2021

I was working on Ethiopia Electric Utility Company by helping the company on creating and test software products from start to finish. we discussed and analyzed user requests and requirements then we made research and brainstorm practical solutions to meet those needs, also we determine the best course of action to create the Billing System application.

Remote and Local company's at US, Israel, South Korea, Addis Ababa.

Jan, 2017 - Jan 2022

I have worked for multiple local and remote companies and I have participated in different projects as a team.

🎓 Education

Software Engineering at Addis Ababa University.

Sep, 2016 - Sep, 2021

I have graduated from Addis Ababa University, in Software engineering. I chose that field of study because I've always been interested in programming.
